

The Remedy for the Republic of Canada!

By Michael Benyacar

Good news everyone, please pay attention. We know what happened ¹ — and in knowing what happened, it's possible for you and I to unravel it without bloodshed.

Always remember that bloodshed is what the enemies of mankind want. They want the loss of bodily autonomy ², slavery and violence. They want an endless cycle of revenge. They want to stand back and watch us destroy each other. That is their schtick. That's how they make profits. That's how they overcome all that is good in the world.

Back in the 1960's colonialism was recognized as the evil that it is.

The Commonwealth, which was basically church-sponsored colonialism, was taken apart and ended — so we were told.

Hearing this news, people in the Commonwealth system were ill-prepared to just leap up and know what to do. The idea of starting a new government and disturbing the established order was foreign and mostly unwelcome, and, then, add the fact that choosing and forming a new government isn't exactly something any of us would expect to land in our laps.

"Oh, by the way, you have to choose and organize a new government... lamb chops on special at O'Connor's Market.... cloudy today, but no rain expected..."

This combination of confusion and the oddness of the opportunity led to what happened next — nothing.

The Commonwealth workers stayed on the job, the bureaucrats and politicians sailed right on, and so, the Public was lulled back to sleep, left dimly wondering, "What was that all about?" and not knowing what they were supposed to do in response — if anything.

After a period of years, no new Canadian Government had formed to replace the old Commonwealth colonial government, so the Queen came back in and set up a British Territorial Government as a Protectorate until such time as the Canadians get organized and set up their own lawful government.

This Territorial Government is a military government operated as a commercial corporation, and like the Raj in India, it has occupied Canada.

This is a Gross Breach of Trust on the part of the Queen and her Government, which has been greatly enriched by seizing title to Canada and reducing Canadians to the status of Territorial Subjects.

The Perpetrators would claim their sneaky salvaging of the Commonwealth assets is legal — and they back this up by hypothecating all sorts of debt against the Canadian People and hypothecating more debts against Canadian land and other assets for all these unsought and unauthorized salvage "services" they are providing.

Most of you can now recognize that you are being serviced in the same sense that a cow may be serviced by a bull. Justin Trudeau and Company are stealing everything in sight and selling what isn't nailed down to foreign investors — and he may be a Prime Minister of something, but he is certainly not operating as The Prime Minister of Canada³.

Meantime, the clueless rank and file Canadians are being deprived of their Constitutional Guarantees and railroaded and taxed under Admiralty Law, in a parallel to what was foisted off on the Americans next door.

Using this ruse, under the pretense of ending colonialism, the Perpetrators have evaded their obligations owed under the Commonwealth and have established a ruthless and predatory Territorial government, instead.

One can almost imagine the Queen saying, "Oh, you don't like chocolate ice cream? How about triple double-fudge?"

The take-home message is that you still have the opportunity to form your own legitimate and lawful government ⁴, but you have to take the proverbial bull by the horns and declare yourselves Canadians (not Territorial Subjects) and get on with the business of organizing your own new government.

If you organize and get serious, the Queen's minions will have no reason to assume that Canada is left without a government and that the Canadian People have been left stateless as a result of their own lack of initiative.

Get going. Every day that you delay and are distracted by the antics of political parties (that is, lobbyists intent on getting a bigger piece of your pie), conditions worsen and your slender hold on independence and good government and overall security weakens.

Declare yourselves Canadians by origin and birthright and publish your standing on any public record database you can find and start researching exactly what happened when the Commonwealth ended. You will then be able to discern the rest of the story and what has come to pass: the vacuum left by the loss of the Commonwealth Government was filled by political hacks and the commercial mercenaries now known unofficially as the Canadian Raj.

And please note, that the same thing has happened to Australia, New Zealand, and all the other countries that were once part of the British Commonwealth. They have all been set up and victimized in precisely the same way.

¹ It consists of "enfranchising" living people as "corporate persons" merely named after them — for example, naming the cosmetic corporation ELIZABETH ARDEN after the designer Elizabeth Arden creates the possibility of confusion between the living woman and the corporate persona. Unscrupulous lawyers have long made profit from this "confusion" by bringing charges against such corporate "PERSONS" and forcing the living people these things are named after to assume their debts. This is a crime known as "personage" in the first part (creating the "PERSON" especially without due notice and explanation) and "barratry" in the second --- bringing charges under such known false presumptions.

² The Nuremberg Code restrictions on forced medical procedures — Article 6, Sections 1 and 3, are especially clear and adamant.

Canada was an official Ally in the Second World War and Party to the Nuremberg Trials and signatory to the resulting Nuremberg Code, yet today we are told that Justin Trudeau is instituting a forced program of vaccination in Canada. The question is, will Trudeau's Government be allowed to take this action

which is flagrantly in violation of the Nuremberg Code and flagrantly criminal in nature? Or will the members of the United Nations call, "Foul!" and stand up against this gross trespass against basic individual human rights?

Remember, always, that no claim of "emergency" stands against the Public Law, meaning that Trudeau cannot lawfully or legally claim any Ultra Vires right or regulatory authority based on the existence of any purported emergency, including a public health emergency.

If Canadians didn't explicitly give Trudeau authority to wipe their butts, he doesn't have that authority and can't exercise it. He can't wipe their noses, either. And he can't "require" any vaccinations. He also can't threaten to deny or to withhold any common right, like the right to travel or to have access to public facilities, in order to coerce consent to forced vaccinations. The ball is in the air. Will the world sink into complete, utter, abject criminality at the hands of dictatorial corporate CEOs, or will we all wake up and shove it down their throats?

³ He is the "Premier" of a commercial corporation in the business of providing governmental services, under contract to the British Territorial Democracy that is quietly usurping against the actual lawful Government of Canada while the people of Canada sleep. Trudeau is a corporate CEO of a Municipal Corporation and he has no more actual power or authority than the CEO of McDonald's restaurants. He has no Public Office at all.

What these commercial corporation CEO's have done is to lie about you and your country. They have claimed that you are "stateless" because you haven't bothered to bring your own government into Session for decades. And then, they have claimed you as "presumed to be" political asylum seekers and dependents, which is nothing but fraud and usurpation, Breach of Trust and Violation of Commercial Services Contract.

In Canada, as in America, this scheme has been implemented using the Birth Certificate Registration to "claim" you as part of their Territorial citizenry, instead of recording your nativity as a Canadian. This is all just one big British commercial confidence racket using falsification of records implemented by turning Public Records into Registrations — which is an act of unlawful conversion when imposed upon the victims without full disclosure and knowing consent.

And we will note, they are at it again, trying to unlawfully convert living men and women into "Genetically Modified Organisms" via the undisclosed injection of patented RNA and DNA — and they are doing this for the same reason: to gain a commercial ownership interest in the bodies and land and other assets naturally belonging to these people

As for the people in Canada as in America, they must "record over" the false registration paperwork and record their lawful birthright political status as Canadians, and claim their DNA and enact laws (as we have already done) to prohibit the claim of any commercial patent interest in living men and women.

The next logical step is for their constitutional republics to nationalize all foreign corporations that have been chartered under their auspices during their purported absence, by those claiming to represent them.

⁴ An analogy of what has happened. Imagine a young couple driving with a baby (Canadians) in the back seat. They get into an accident and the parents die but the baby lives. The baby is too young so the insurance has to give the money to a Trustee to manage and look after the baby.

What happens next depends if the baby grows up and goes to their Trustee and say thank you for your services to date. Now hand over my estate thank you. However, what happens if the Beneficiary never shows up to claim their estate? The Trustee will continue to look after the Beneficiary for an exorbitant fee of course.

It is time for all Canadians to finally grow up and manage their own National affairs and to stop depending on the Crown to do it for them for an exorbitant fee of course. The proof that we are all ready is when we show up to claim our National heritage and rights.

Always remember, there are two ways to solve any problem. One is to come up with as many solutions as you can to solve all the effects the problem is causing. The second and superior way is to eliminate the original cause thereby eliminating the need to come up with many costly solutions.

For this reason, "United Non-Compliance" although might work, it is not enough! For the one reason that it leaves the original cause of all the problems fully intact. Creating our own Government is the only solution that will remove the root causes.
